

# Asphalt Paving

The Miller Group  
Miller Paving Limited

millergroup.ca

The Miller Group has been paving high quality roads across the province for over 60 years. With over 19 asphalt plants located in Ontario, Miller is able to offer the wide geographical coverage clients require. Although known as a road builder for years Miller has broadened it's scope to include new subdivision roads, commercial, industrial, retail parking lots and freeway paving projects. The broadened scope of The Miller Group also includes day, night, and weekend projects.

Miller recognizes that no two projects are the same and each one requires a specific mix design. All our plants offer a wide range of asphalt mixes including:

- HL-1
- HL-3
- HL-8
- Superpave
- Stone Mastic Asphalt
- Dense Friction Course
- Specialty Mixes

Miller, through it's many different sectors, is able to supply all materials, labour, and equipment needed for paving. Controlling all aspects of paving internally results in tighter control on quality and a better product for the customer.

*The Miller Group is your commitment to excellence*
