

Miller Transit

The Miller Group
Miller Transit Limited

millergroup.ca

Miller Transit has offered Public Transit operational services to municipalities since 1984. We are currently under contract with the Regional Municipality of York servicing the Towns of Markham, Richmond Hill, Stouffville and Owen Sound.

Miller Transit takes full responsibility for the operation, maintenance, and repair of the municipally owned fleet of buses. Miller supplies all staff to operate the system, including drivers, route inspectors, mechanics, dispatchers, driver trainers, shop and related equipment, wash bays and parking lots.

Miller Transit dispatches a fleet of 135 buses of various makes, models, and lengths, including the new style low floor, wheel chair accessible buses.

Annually, Miller Transit covers more than seven million kilometres of transit services for the residents of Markham, Richmond Hill, Stouffville and Owen Sound.

In the last three years Miller Transit has doubled in size, considering kilometres covered, fleet size and number of drivers.

Our drivers are among the best-trained transit operators in the country. New hires receive 240 hours of instruction (apart from licencing training). In addition, they attend 12 to 14 hours of ongoing training each year thereafter.

Miller Transit operates a full-service bus shop staffed by 40 diesel mechanics, apprentices, lube techs and house-keeping personnel.

The Miller Group is your commitment to excellence
