Miller Waste Systems is a leader in total waste management, providing municipalities and industry with a wide range of services including: waste audits, collection of waste and recycling material from residential, commercial and institutional facilities, and the operation of waste transfer stations, material recovery and compost facilities.

Miller Waste Systems provides integrated waste-related services to municipalities. These services include household collections, transfer stations and material recovery facilities.

All equipment is professionally maintained to ensure uninterrupted service and the safety of the community we service.

Miller works closely with federal, provincial and municipal authorities to promote environmental regulations and offer waste management solutions.

Miller aims to be a true partner with communities it serves. Miller Waste System is, itself, a local business, employer and tax payer.

Miller Waste Systems curbside collection for municipalities includes waste and recyclable materials picked up in single or multiple streams.
