

Transfer Station Services

The Miller Group
Miller Waste Systems

millergroup.ca

Miller Waste Systems is a leader in total waste management, providing municipalities and industry with a wide range of services including: waste audits, collection of waste and recycling material from residential, commercial and institutional facilities, and the operation of waste transfer stations, material recovery and compost facilities.

Applying advanced technologies to all of Miller's transfer facilities.

Miller satisfies clients by assuring that their waste is handled and disposed of in accordance with regulations.

Miller Waste Systems designs/builds/operates and can finance transfer stations that meet the needs of our clients regardless of the size required.

Transfer facilities benefit the communities that we service by providing employment and the peace of mind that professional waste solutions are being provided to the community.

Miller has vast experience in the requirements to expedite the approval process through the Ministry of Environment.
